

PROTECT *America's Heartbeat*

Dear Washington Member of Congress,

I am one of the 122,800 active and retired federal employees and survivors living and working in Washington State. I am very concerned that our wages, benefits and retirement annuities are at risk of being cut in an effort to reduce the federal budget.

Times are tough, and we want to do our part, but not if it means we are singled out for budget cuts while others are not asked to make similar sacrifices. All of us are proud of the work we do—and have done—in fulfilling our commitment to our country, the agencies and people we serve.

Federal workers and annuitants did not cause our budget crisis. I urge you to ensure that federal workers, retirees, and survivors who devoted their careers in service to this nation are not unfairly singled out as efforts to cut the federal budget continue.
